

## Junior Travel Ambassador Bike Design Homework Challenge Winners

Junior Travel Ambassador Homework Challenge: Design a Bike using only Natural Materials

We asked the children to build or design a new bike made entirely of sustainable materials found in their local environment, including leaves, twigs, pine cones, conkers, grass or even flowers. Children created their own bike designs using a fantastic range of materials and designs varied from 3D working bikes, to bikes made out of flowers and twigs to Victorian Penny Farthing bikes made out of sticks and berries. The winners and runners up from each Key Stage were awarded with prizes in a special prize giving assembly. Well done to everyone who entered for their creative and exciting bike designs!

<b>Foundation Stage Runners Up</b>	Jaysen- Bank
	Oajiha- Paddington
<b>Foundation Stage Winner</b>	Maja T- Paddington
<b>Key Stage One Runners Up</b>	Oliwier- Knightsbridge
	Hanna- Knightsbridge
<b>Key Stage One Winner</b>	Daniel B - Pimlico
<b>Key Stage Two Runners Up</b>	Bianka- Temple
	Fabian- Southwark
<b>Key Stage Two Winner</b>	Stella- Temple
