

## Dear Families,

This term, we have had a brilliant time with our Spotlight on Sport focus—football! This has been enjoyed and embraced by the whole school!

This half term we were very lucky because we met a 15 Time World Record Holder called Ash Randall. At the start of his visit, we had an amazing assembly where he showed us all of his tricks. He showed us the most extraordinary trick ever – he balanced a ball on his head on top of his cap and a Pringles can! All of KS2 had a workshop that was amazing. We all learnt lots of tricks and even worked with an indestructible football! It was a special ball that Miss Gurney taught us about in assembly that is being used by children in disadvantaged countries to keep their communities together and safe. Gonzalo from Year 3 said, 'It was amazing seeing all of his tricks!' Taylor from Year 3 also quoted, "Ash was good at free styling. I would like him to come again."

We had a very special assembly and got to ask Steven lots of questions. He told us that he uses special hand signals in a match to communicate with his family. Amira from Year 3 said, 'It was a fun assembly because he told us a lot about what he does on the pitch.'

This half-term we have been focussing on football. Most classes have had workshops such as: AFC Wimbledon club coming in and Mitcham Park. They taught us many football skills and even did some after school clubs for children in Years 3-6.

Wow! We have had an amazing half term. We had an amazing assistant FIFA

referee come in to see us called Steven Child. He has refereed all kinds of games – even the World Cup!

This half-term, Singlegate and William Morris Primary School had a football tournament. The Year 3 and 4 and Year 5 and 6 football teams played each other. There were 13 people in each team. All the teams had a lot of fun. Daniel (a Year 6 boy who took part) said, 'The football match was fun because the Singlegate children were very very good at football. Well done Singlegate.'
