

Dear Families,

Welcome to William Morris Primary School Miss Davies

I would like to formally welcome Miss Davies as our new Assistant Headteacher and Inclusion Leader. Miss Davies will be responsible for all of our children with Special Educational Needs and our children with English as a second language. Mrs van Manen will be working closely with Miss Davies to ensure a smooth handover in terms of families to meet and children to work with. Miss Davies will also be working in Gates Class to cover Mrs Schulenberg on a Friday. Miss Davies is very much looking forward to continuing some teaching commitment as she has just left her full time teaching role in a Year 6 class. I sincerely hope that Miss Davies enjoys her new role with us at William Morris Primary School.

Walk To School Week

At the end of last half-term Mrs Parrett organised a Walk To School Week event for all of the children. The children were asked to complete a diary of their walk to school each day by either including photos, pictures, items found on their journey and some description of what they saw.

The class with the highest percentage of children who travelled by a sustainable means every day that week (so other than a car) would be rewarded with a trip to Nonsuch Park for a picnic and an afternoon of outdoor games. The lucky class who has won this prize is Glennie Class. Well done Glennie and thank you Mrs Parrett.

Inventions and Inventors

We are very excited to inform you about our Federated half term topic 'Inventions and Inventors'. This topic will focus on Science, Design and Technology and Computing, giving the children the opportunities to explore some exciting new learning. The children will then link these themes into their English and Mathematics.

Over this half term the children will be focusing on various inventors and inventions that have happened throughout history and how we have become part of this technological world.

The children will experience workshops, trips and many unique and exciting activities.

There will also be a homework project set for each key stage where the children can begin to think about current technology and how

this can be improved or changed. You will also be pleased to know that there will an opportunity for you to come and join in with them. The dates for your child's class will follow.

If you feel that you have any experience in these areas and would like to come into school and talk to a class or complete a demonstration please inform your child's class teacher.

We are very much looking forward to this topic and the experiences it will bring.

Mrs Hart, Mrs Newman, Miss Masters, Miss Aktar and Miss Heppenstall

Dates for your diary

Monday 4th June 2018—the preparations for the election of Head Boy/Girl begin

Week beginning Monday 11th June—Year 1 phonics screening

Friday 15th June—Year 6 are off to France to enjoy their long week-end
